

Aviation - Flight Operations

Transport, Postal and Warehousing ANZSIC: 4900 Air and Space Transport

Number Flights

9,700

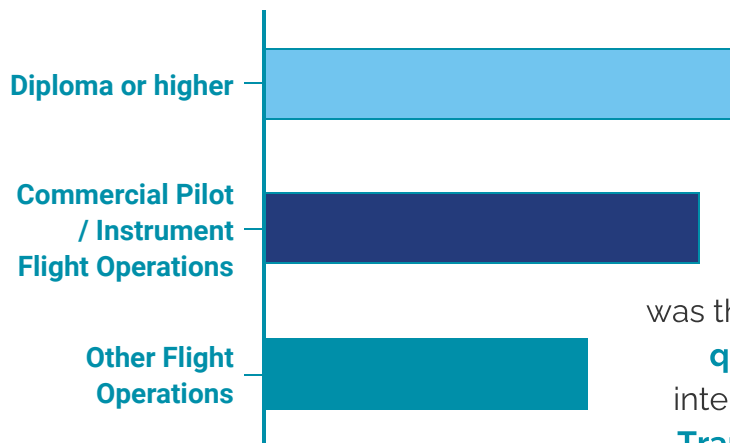

is the **total number of flights** operating out of Perth Airport in July 2022. This includes flying to **13 Countries**, along **88 routes**, by **17 airlines**.

Workforce Participation

42,100

is the **projected employment level** for the Aviation sector by 2025, nationally. Although **employment levels fell** to 34,400 due to COVID-19, **projections indicate it will rise by 1% between now and 2025** as aviation activity resumes to pre-COVID-19 levels.

Aviation Enrolments

6,200

was the **number of program enrolments in Aviation related qualifications** in 2020, nationally. Of these, the main intended **occupations related to Aeroplane Pilots or Air Transport Professionals not elsewhere specified (NES)**.

Occupations in Demand

Occupations in national shortage, with **strong future demand**, include:

- **Aeroplane Pilot**
- **Helicopter Pilot**
- **Flying Instructor**

Remote Pilots / Drones

\$60MN

There are **1.2 Million drones operating in Australia**, and it is believed the **market share** for drones **will reach \$60 million by 2024**.
